

When you stand up to TYRANTS  
We stand up for YOU

## WTP USA HIGHLIGHTS

### LITIGATION

We The Patriots USA, Inc. supports high-stakes federal lawsuits to establish legal precedent that will protect Americans throughout the Nation.

- Against Governor Hochul and the State of NY, a case to be litigated in federal court for denying **healthcare workers their constitutional right** to religious exemptions.
- Against Walmart and Hy-Vee Supermarkets, filed by US Marine Veteran Bill Salier for their Minnesota pharmacies refusing to fill physician-prescribed **lifesaving Ivermectin** medication for Bill and his wife.
- Instrumental **Amicus Brief** to US Supreme Court with unique individual rights arguments regarding the OSHA Mandate case that overturned mandatory vaccinations for companies of 100+ employees.
- Defending **parental rights** by securing counsel and fully funding a lawsuit for parents (and children) in Guilford, CT who opposed divisive Critical Race Theory curriculum.

**Donate here: [www.givesendgo.com/FightCRT](http://www.givesendgo.com/FightCRT)**

- Against Bristol Myers Squibb, a group of employees filed against their **biopharmaceutical employer** alleging religious discrimination after the company denied employees' requests for an exemption. Plaintiffs include a physician with a MPH, a biotechnologist, a biologist, and a data integrity professional.
- Against the PGA Tour, counsel has been secured for former PGA Tour reporter Teryn Gregson, who was fired from the PGA Tour while **22 weeks pregnant** after requesting a religious exemption to the Tour's mask and covid testing policies.
- Against the State of CT, WTP USA has filed an appeal challenging Connecticut's repeal of the **religious exemption** to mandatory immunizations for schoolchildren.
- Protecting **students' right to religious accommodation** through a lawsuit against Creighton University in Nebraska which provided a blanket denial to requests for vaccine exemptions.
- *A few of our wins include:* Yale University, Stanford University, Fordham University, and the State of Missouri, amongst others.

### EDUCATION

Provide resources and information to educate the public on their rights, on the threats against those rights, and on tools to defend their rights. Launched our first podcast, *Faithful Freedom with Teryn Gregson*, a We The Patriots USA production.

### PATRIOT NETWORK

Create a powerful network of activists, physicians, attorneys, scientists, journalists, parents, and other Patriots.

## MISSION

Our goal is to create a powerful network of Patriots to preserve and reclaim our God-given inalienable rights—including but not limited to the rights recorded in the United States Constitution—through education, advocacy, and litigation. We are a nonpartisan organization that does not engage in political activity or lobbying.

## WHAT WTP USA CAN DO WITH YOUR SUPPORT

Founded on July 4, 2020, We The Patriots USA's achievements are made possible by thousands of everyday Americans coming together to support a legal end to tyranny through generous philanthropic contributions to WTP USA. **Will you join them?**

### POSSIBLE FUTURE CASES

Investigating potential legal interventions to support **organ failure patients** who are denied their rightful spot on the transplant list because of their vaccine status.

Exploring litigation on behalf of a Missouri man who wants to hold America's largest pharmacy, CVS, accountable for denying him **lifesaving** Ivermectin, prescribed by his physician.

WTP USA is interested in supporting high-profile cases that have the potential to set **nationwide precedent** to protect all of us for generations to come, such as cases related to:

- Religious freedom
- Medical freedom
- Parental rights
- Free enterprise/capitalism
- Military service members and Veterans' rights
- Food safety
- Educational freedom
- First Amendment rights
- Second Amendment rights
- Environmental safety
